BACHELOR OF

AVIATION MANAGEMENT (HONS)

Weekend classes and Online Forum during Weekdays

OVERVIEW

The Bachelor of Aviation Management (Hons.) is a programme one of its kind. We will be the first institute in this region to offer this programme. This degree programme encompasses four major components of the aviation industry namely Airport management, Airlines management, Logistics management and General Management. Malaysia and other parts of the world are in dire need for professionals and trained personnel in these fields. Universiti Kuala Lumpur Malaysian Institute of Aviation Technology (UniKL MIAT) is here to support this needs. This programme had been specifically designed for the aviation and logistics industries. It had received positive support from these industries, and the course contents are at par with other major international institutions of higher learning. As a summary, this programme takes four years to complete comprising of 8 semesters. Students must take 140 credit hours of these subjects to graduate. The compulsory industrial training and Final Year Project form part of this programme.
