MASTER IN COMPUTER SCIENCE

Weekend classes and Online Forum during Weekdays

This is a unique master program that helps working adult to continue their education to advance their career. The program offers TWO majoring; software engineering and system and networking, which has high demand in engineering technology. Students only need to complete 6 subjects / taught courses and a dissertation to graduate which will take a maximum of 1.5 years with affordable fees. Taught by experienced lecturers who will equip graduates with required knowledge.

FUNDING OPTIONS

HRDF Claimable

**subject to company levy contribution*

EPF WITHDRAWAL

PTPTN

**subject to PTPTN approval*

CREDIT CARD

ENTRY REQUIREMENT

Bachelor's degree in Electrical and Electronics Engineering or Engineering Technology or Computer Science with minimum CGPA of 2.75

or

Bachelor's degree Electrical and Electronics Engineering or Engineering Technology or Computer Science with CGPA of below 2.75 with internal assessment

or

Bachelor's degree with a minimum five years working experience in related field and other professional

(for international students only)

IELTS 5.0 or TOEFL 500 or Equivalent

and

Pass a special course conducted by the English Language Centre UniKL

MODULES OFFERED

Semester 1 Advanced Computer Science
Algorithm Complexity Analysis
Innovation Technology and Entrepreneurship

Semester 2 Research Methodology
Software Requirement and Design
Software Quality and Testing
Mobile Computing
Advanced Networking

Semester 3 Dissertation
